

Program Overview

SWIM STARTERS

Parent* & child lessons

A Water Discovery

Introduces infants and toddlers to the aquatic environment

B Water Exploration

Focuses on exploring body positions, blowing bubbles, and fundamental safety and aquatic skills

Outcomes

Accompanied by a parent, infants and toddlers learn to be comfortable in the water and develop swim readiness skills through fun and confidence-building experiences, while parents learn about water safety, drowning prevention, and the importance of supervision.

SWIM BASICS (Safety Around Water)

Recommended skills for all to have around water

1 Water Acclimation

Increases comfort with underwater exploration and introduces basic self-rescue skills performed with assistance

2 Water Movement

Encourages forward movement in water and basic self-rescue skills performed independently

3 Water Stamina

Develops intermediate self-rescue skills performed at longer distances than in previous stages

Outcomes

Students learn personal water safety and achieve basic swimming competency by learning two benchmark skills:

- Swim, float, swim—sequencing front glide, roll, back float, roll, front glide, and exit
- Jump, push, turn, grab

SWIM STROKES

Skills to support a healthy lifestyle

4 Stroke Introduction

Introduces basic stroke technique in front crawl and back crawl and reinforces water safety through treading water and elementary backstroke

5 Stroke Development

Introduces breaststroke and butterfly and reinforces water safety through treading water and sidestroke

6 Stroke Mechanics

Refines stroke technique on all major competitive strokes and encourages swimming as part of a healthy lifestyle

Outcomes

Having mastered the fundamentals, students learn additional water safety skills and build stroke technique, developing skills that prevent chronic disease, increase social-emotional and cognitive well-being, and foster a lifetime of physical activity.
